Dear Naghul Adhithya:

Thank you for applying to Purdue University. Our Admissions Committee has carefully reviewed your application for admission for Fall 2026 for both your primary and alternative major.

We received a high volume of competitive Early Action applications this year. In some cases, a decision can be made — *Admit, Waitlist or Deny*. In many other cases, even for some highly qualified applicants, a decision cannot yet be made at this early stage of the admissions process given the volume of applications coupled with space constraints, and the decision is *Deferred* to the regular decision timeline.

Your admission decision is being deferred.

We strongly encourage you to use the [\*\*Letter of Continued Interest form\*\*](#), available on the dashboard of your applicant portal, **by March 1**. Through this form, you may share additional information about your interest level in Purdue and upload supplemental materials you **have not** previously submitted. **You will receive an admission decision by March 31.**

If you have **new grades or test scores** that weren't submitted with your application, **we encourage you to provide those as soon as possible** by self-reporting them in this portal. We do not recommend taking a new test or soliciting a new letter of recommendation at this time. If you are no longer interested in Purdue, a cancellation form is available in your portal.

For questions or additional support, contact the [\*\*Office of Admissions\*\*](#) to connect with a counselor. Our team is available Monday–Friday, 8 a.m. to 5 p.m. Eastern Time.

Sincerely,

Mitch Warren  
*Assistant Vice Provost & Director of Admissions*
